5. A major milestone was reached on 27 February when Contel held a review with OIT to assess its readiness to start with the scheduled cutover of the new secure telephone switch on 27 March. Although several concerns still must be resolved, Contel was directed to proceed with the planned trunk cutover. OIT will monitor the outstanding concerns to ensure they are satisfactorily resolved before 27 March.
6. SAFE Delivery 2 experienced an outage of 10.5 hours on 21-22 February. The outage caused a significant backlog, and OIT personnel worked continuously through the weekend to clear up the data problems and space allocation problems.
9. OIT customer representatives received reports for the Agency Budget Formulation (ABF) segment of Budget and Accounting Resources System (BARS) to confirm the accuracy of the conversion of data from the Financial Resources System (FRS) to ABF. The representatives have confirmed that the budgetary data for fiscal years 1988 and 1989 has been converted successfully.
10. The Agency Forms Manager has finished the audit of the Forms and Report Management System (FARMS) data base. The audit took three months to complete and approximately 1700 Agency forms were reviewed. Also, 317 forms were identified that require further review for revision or possible cancellation.
